Dear Mr Evans

**RE: LOT 3 DP 213924 - 60-70 BOURNEMOUTH STREET, BUNDEENA  
"The Boy Scouts' Camp", Spring Gully**

I am writing to ask you to support the proposed community purchase of "The Boy Scouts' Camp" property, which is currently for sale by Scouts Australia NSW.

I understand your constituents in the Bundeena community have raised substantial funds and are willing to meet a reasonable purchase price. Their intention is to conserve the land.

The community have partnered with the Foundation of National Parks and Wildlife who have agreed to purchase the property on behalf of the community. The Foundation will pass the management of the land to the National Parks and Wildlife Service.

I support this outcome. It will allow the land to become part of the surrounding Royal National Park avoiding potential development under private ownership. The environmental and cultural heritage values of the land are high. The land is identified as bushfire prone, covers a significant part of the Bundeena catchment area and contains freshwater wetland and flood plain making it highly environmentally sensitive land.

Please support the community purchase and provide whatever representations and assistance you can to the Minister for Environment, Scouts Australia NSW and the Foundation for National Parks and Wildlife to help the community purchase of this land for the national estate.

Yours faithfully
