SYDNEY NSW 2000

Dear Minister

**“The Boy Scouts’ Camp”, Spring Gully
60-70 BOURNEMOUTH STREET, BUNDEENA**

I am writing to ask you to support the proposed community purchase of “The Boy Scouts’ Camp” property, which is currently for sale by Scouts Australia NSW.

I understand the local Bundeena community has raised substantial funds with the aim of making a community purchase to ensure the bushland is conserved.

The community have partnered with the Foundation of National Parks and Wildlife who have agreed to purchase the property on behalf of the community. The Foundation will pass the management of the land to the National Parks and Wildlife Service.

I support this outcome. It will allow the land to become part of the surrounding Royal National Park avoiding potential development under private ownership. The environmental and cultural heritage values of the land are high. The land is identified as bushfire prone, covers a significant part of the Bundeena catchment area and contains freshwater wetland and flood plain making it highly environmentally sensitive land.

Please support the community purchase and assist the Foundation for National Parks and Wildlife in purchasing this land for the national estate.

Yours faithfully
