To whom it may concern:

Response to the Sussex Street sell-off to a developer. File Ref: CP/02/285112

I am a frequent user of the Coast Track starting on Beachcomber Ave, Bundeena. It has been brought to my attention that the **public bushland called Sussex Street** could be sold to a private developer. I am familiar with the significant stand of old bloodwoods that exist in this area. This land should not be sold for private profit. This land is enjoyed by many, belongs to all of us and should be saved for present and future generations. The Council's old Sanitation Depot will be transferred to the National Parks and Wildlife Service and they have requested Sussex Street be included in this transfer.

I **demand** that Sussex Street be **TRANSFERRED to the NATIONAL PARKS and WILDLIFE SERVICE** for inclusion in the Royal National Park along with the transfer of the Old Sanitary Waste Depot land.

Yours sincerely,

.....
